

**UNIVERSITY OF MICHIGAN, ANN ARBOR
COLLEGE OF ENGINEERING**

DTE ENERGY PROFESSORSHIP IN ADVANCED ENERGY RESEARCH

The College of Engineering at the University of Michigan currently has an open endowed professorship position in the area of advanced energy. Candidates should bring a professional background that merits appointment at the full professor level in one of the engineering departments at the University of Michigan and have a national and international track record of distinguished research, teaching, and professional service activities. The candidate should possess not only a strong technical background, but also provide perspectives on technology and policy issues relevant to energy. The position will provide an excellent opportunity for candidates who are interested in not only basic research, but also practical applications of technology and entrepreneurship in the advanced energy arena. The candidate for this position might also be considered for the position of Director of the Michigan Memorial Phoenix Energy Institute.

As a senior faculty member, the candidate will be expected to provide inspiration and leadership, teach undergraduate and graduate level engineering courses, develop a strong externally funded research program that supports high quality, scholarly research, and contribute to the diversity of the academic community.

The University of Michigan is a non-discriminatory / affirmative action employer. Underrepresented minorities and women are strongly encouraged to apply. The College of Engineering is especially interested in qualified candidates who can contribute, through their research, teaching, and/or service, to the diversity and excellence of the academic community.

Nominations and letters of applications, including curriculum vitae, a statement of research and teaching interests, and the names and contact information for at least three references should be sent to:

**Professor Johannes W. Schwank,
DTE Energy Professorship Search Committee Chair,
Department of Chemical Engineering,
3014 H.H. Dow Building,
University of Michigan, Ann Arbor, MI 48109-2136.**

Nominations and applications can also be submitted via e-mail:

schwank@umich.edu.

Candidates are encouraged to apply now and certainly before January 5, 2012, as applications will be reviewed continuously until the position is filled.
